College for Kids & Teens

Youth programs that exercise the brain and body

What's new with LCCC College for Kids & Teens

The Campana Center for Ideation and Invention is offering new STEAM Maker Saturday Workshops designed for children and teens. Workshops will be held in the new Ideation and Invention Center and will provide hands on opportunities to design and create projects using tools and digital technology. See the reverse side for information on the first three workshops. Register early – space is limited

Watch for upcoming information on summer and fall offerings including additional Campana Ideation and Invention offerings, new culinary classes, and offerings for the young aspiring entrepreneur.

Camps opportunities this summer will include Rosie's Girls, TECHIE Camp and new opportunities for boys and young entrepreneurs.

For more information over the next few months visit our website at www.lorainccc.edu/kids.

Did you know that April 21st is Astronomy Day?

Join our expert astronomer as we celebrate Astronomy Day! Blast off from Earth on a fun filled trip through the solar system. For more information on the Solar System Explorers workshops please see the course listings on the reverse side and take a look at our other astronomy offerings which include the Starlab!
