Note: In an effort to continue our commitment to quality care and help contain the increasing cost of prescription drug coverage, a formulary feature is included in your prescription drug benefit. A formulary drug is a FDA approved prescription medication reviewed by an independent Pharmacy and Therapeutics Committee brought together by Medco Health Solutions, Inc. Formulary drugs can assist in maintaining quality care while meeting your plan's cost containment objectives.

Benefits will be determined based on Medical Mutual's medical and administrative policies and procedures.

This document is only a partial listing of benefits. This is not a contract of insurance. No person other than an officer of Medical Mutual may agree, orally or in writing, to change the benefits listed here. The contract or certificate will contain the complete listing of covered services.

**Important Information for Diabetics:** you may be able to obtain diabetic supplies at no cost to you by participating in MMO's Diabetes Management Program. If you have questions about the program and/or wish to enroll, please call 1-800-861-4826.

<sup>1</sup>Preferred Prescriptions/Rx Selections Drug List: A list of drugs on the Preferred Prescriptions/Rx Selections formulary will be used.

<sup>2</sup>Diabetic Supplies, including over-the-counter items, as well as insulin, syringes and needles, glucose monitors, glucometers and glucometers are covered. If insulin is purchased on the same day as supplies, then one copay will be charged. If insulin is not purchased on the same day as supplies, then each supply takes a separate copay including syringes.

<sup>3</sup>Proton Pump Inhibitors (PPIs) are a class of drugs that inhibit gastric acid production and are used to treat a variety of gastrointestinal conditions.
