SPECIAL PRESENTATIONS

A. Food Service Update

Andrea Sokolow, Food Service Supervisor
Certification of Standards Governing Types of Foods and Beverages Sold on School Premises

State law in Ohio requires each school district board of education and each chartered nonpublic school board or governing authority to adopt and enforce nutrition standards governing the types of food and beverages that may be sold on the premises of its schools. Additionally, the board or governing authority must specify the time and place each type of food or beverage may be sold. The standards specified for beverages and food are minimum standards. Local districts and schools may adopt higher standards.

Each board or governing authority assigns staff to make sure that the district or school meets the nutrition standards in state law. The staff prepares an annual report regarding the district's or school's compliance with the standards. Completion of this survey fulfills the district or school's requirement to report to the Ohio Department of Education its compliance with state law. The board or governing authority must schedule an annual presentation on the report at one of its regular meetings and report the date of the annual presentation into this survey.

Avon Lake City Schools has adopted and is enforcing a nutrition standards policy that considers the requirements of Ohio Revised Code 3313.814 and governs the types of food and beverages that may be sold on the premises of its schools.
