PERSONAL SUCCESS COACHING FOR KIDS

**Building resiliency in children is not about making them tough. It's about helping them build up their capacity to manage and recover from difficulties through heart and mindset development.**

Sometimes children struggle but they don't have to. Reaching them early will help them through the teen years.

When a child's mindset is positive and they possess the tools to manage adversity... watch out! Great things will happen!

**I help kids who struggle with:**

- Self-esteem
- Change
- Self-confidence
- Peer pressure
- Respect
- Lying or sneaking
- Mistakes or failures
- Fear
- Integrity
- Comparing themselves to others
- Making good decisions
- Getting down on themselves
- Making friends
- Shyness
