

Curriculum & Instruction Report

December, 2020

Dr. Jack Dibee, Curriculum Director

Remote Learning 2nd Semester 2021

- Enrollment Numbers/Changes (note, numbers do not include movement made during the semester)

	1 st Semester Start	2 nd Semester Start	Return to School	New Enrollment
Elementary	277	248	19	11
Troy	100	107	8	15
Learwood	124	117	16	17
High School	186	201	31	52
Total	687	673	74	95

Remote Learning 2nd Semester 2021

- Staffing in Progress, anticipate utilizing the same number of staff as first semester, 34 FTE
- Staffing modifications made to deal with large numbers of quarantined students
- Instructional model will follow first semester
- Student growth will be measured through NWEA Maps test

COVID-19 Update

CURRENT AS OF 12/7	ALHS	Learwood	Troy	Eastview	Erievew	Redwood	Westview	TOTAL (%of 3150 in-person students)
Students Positive YTD	30	7	10	0	1	2	3	53 1.7%
Staff Positive YTD	8	4	10	3	3	3	3	35
Students Quarantine YTD	179	112	67	7	29	40	27	460 14.6%
Students Quarantine CURRENT	30	22	24	13	7	6	13	115 3.6%
Staff Quarantine CURRENT	7	2	5	2	0	2	3	21

COVID-19 Update

- 245 Ohio school districts are operating with 5-day in-person return to classes.
- 185 Ohio school districts are operating with a fully remote return to learning.
- 177 Ohio school districts are operating with a hybrid of in-person and remote return to learning.

- Many schools are holding in-person classes while offering an online option for those who prefer that route or who require it for health reasons. **Data compiled 12/03/20. Information is subject to frequent change and does not represent an official categorization by the Ohio Department of Education.*

COVID-19 Update

- <http://education.ohio.gov/Topics/Reset-and-Restart/Considerations-for-Schools-and-Districts-in-Purple>
- **Considerations for Schools and Districts in Purple Counties**
- Since the ordered school-building closure began on March 17, and subsequent Reset and Restart phase, Ohio's education community has continually stepped up to ensure a student-centered approach to caring, teaching and learning. Ohio is experiencing increased COVID-19 cases each week, and as a result, Ohio currently has numerous counties categorized as *Red (characterized by very high COVID-19 exposure and spread)*, according to the [Ohio Public Health Advisory System](#). **As counties across the state face the prospect of potentially being classified as Purple (characterized by severe COVID-19 exposure and spread), questions and subsequent debates are arising over the implications for schools and the safest and most effective mode of instruction.** In particular, there are questions about the implications of the Purple level guidance to “only leave home for supplies and services.” Education qualifies as a service for purposes of this quoted statement. Many districts and schools have linked their reopening plans and contingencies to the Public Health Advisory System and have specified actions that would be taken at the Purple level. That said, **there is no state mandate that schools operate exclusively in a remote manner** should a county be categorized as *Purple*.

COVID-19 Update

Quarantine Following Possible COVID-19 Exposure

Public health recommendations for COVID-19 continue to evolve and are updated as new scientific evidence becomes available. On Dec. 2, 2020, the Centers for Disease Control and Prevention (CDC) released a [scientific brief](#) with considerations for reducing quarantine for people possibly exposed to COVID-19. The Ohio Department of Health (ODH) has modified this guidance to meet the specific needs of our state and considerations for local circumstances and resources.

Recommendations for quarantine adapted by ODH support efficient use of resources and a reduced risk of post-quarantine transmission. Healthcare facilities, in consultation with local health departments, may also consider [CDC's Strategies to Mitigate Healthcare Personnel Staffing Shortages](#).

ODH Recommended Options for Quarantine Following Possible COVID-19 Exposure

	Duration of Quarantine	Recommended Actions
Optimal Duration to Minimize Risk of Transmission	<p>Stay at home for at least 14 days* after last exposure.</p> <p>* A 14-day quarantine period presents the lowest risk of post-quarantine transmission. This strategy is preferred for people living in, working at, or visiting congregate living facilities, high density workplaces, or other settings where potential extensive transmission or contact with people at increased risk for severe illness from COVID-19 is possible.</p>	<p>Maintain social distance (at least 6 feet) from others and wear a mask when around other people.</p> <p>Self-monitor for symptoms through day 14. (Check temperature twice a day, watch for fever, cough, shortness of breath, or other symptoms of COVID-19.)</p> <p>Persons who develop symptoms of COVID-19 or who test positive for COVID-19 should self-isolate and follow recommendations for discontinuing isolation.</p>

News - Reminder About Travel to States on Ohio's COVID Travel Advisory List

Published on December 7, 2020

As the holidays are approaching, please keep in mind that the Avon Lake City Schools requires any student or staff member who travels to one of the states on the current COVID-19 Travel Advisory list to quarantine for 14 days upon return. Note, this list is updated weekly
