

Operations Department

2023 Permanent Improvements (and Other Projects)

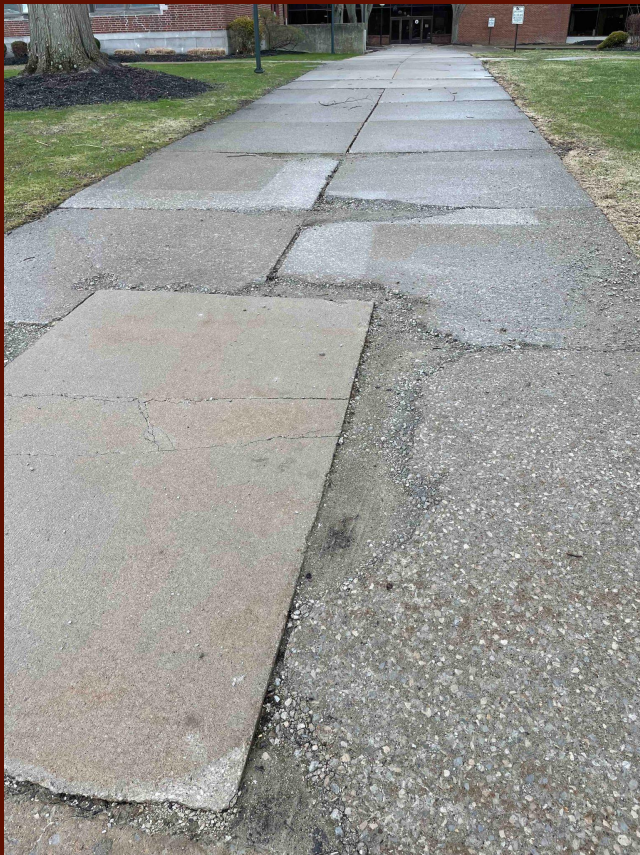

ALHS

Parking Lots and Sidewalks

- Annual crack filling and striping, including correction of the striping/numbering in the North Lot
- Sidewalk repairs at the South Commons and Board Lot (right) are now complete
- Other minor repairs completed around campus

The High School campus is large and utilized year-round. We continue to repair large portions of the sidewalks, particularly near the entrances.

Board meeting entrance: Before

Board meeting entrance: After

ALHS

Arts and Academics:

- Completed PAC lighting upgrades / new light board install in progress / stage refinished for less than \$560 (lower right)
- New PAC curtain system ordered
- Continued conversion of Room 261 to flexible lab space (upper right)
- Replacing math department whiteboards

ALHS

Athletics:

- Locker room renovations (partnered with Athletic Dept. and Football Club)
- Baseball / Softball: Renovated all bullpens, backstop project in progress, softball LF drainage repaired
- Multipurpose (wrestling) room renovation completed (partnered with Wrestling Club and Boosters)
- Memorial Stadium safety and accessibility repairs; track repair and restriping; goalpost repairs
- Tennis court study underway

Girls Locker Room: Before

Girls Locker Room: After

Boys Locker Room: Before

Boys Locker Room: After

Baseball / Softball: Bullpens and Softball LF drainage project

Multipurpose (wrestling) room renovation

Memorial Stadium: Accessible seating area and student section bracing

Memorial Stadium: Goalpost repairs were complicated, but necessary!

ALHS

Safety and Security:

- Additional cameras and HALO IoT sensors (grant-funded)
- Commons window wraps (right - partially grant-funded)
- Fence repairs: Memorial Stadium
- Exterior access control systems (grant-funded)
- Exterior door replacement continues (mostly grant-funded)
- Increased AED coverage

Technology Dept. Doors: Before

Technology Dept. Doors: After

Increased AED coverage at ALHS - including in this room!

ALHS

Challenges:

- Roofing, mortar repair, windows and doors, etc.
- HVAC system
- Interior lighting - continuing changeover to LEDs
- Plumbing

One of our most significant challenges - replacement of the High School chiller plant at an estimated cost of \$1.34 Million

Eastview

Parking Lots and Sidewalks:

- Annual crack filling
- Significant sidewalk repairs
- Front door threshold repairs (right)

Other:

- Music room carpet replacement
- Gym padding (right - HS surplus)
- Large fan installed in gym

Music room carpet (old carpet was torn)

Gym fan (Eastview PTA contributed to this project)

Erievuew

Parking Lots and Sidewalks:

- Asphalt repair / crack filling / sealcoating / striping - key area this summer was the back driveway toward the kitchen entrance / receiving door (upper right)

Other:

- Doorbell installed at kitchen entrance (lower right - safety and security upgrade)

Learwood

Parking Lots and Sidewalks:

- Annual crack filling and striping
- Sidewalk repairs completed

Other:

- Refinished gym floor (right) and completed athletic equipment repairs
- Boiler repairs
- HVAC controls system software upgrade

The gym floor at Learwood is notoriously difficult to keep in good condition (heavy use, slippery)

Redwood

Parking Lots and Sidewalks:

- Annual crack filling and striping
- Sidewalk repairs completed

Other:

- Playground equipment replacement, repairs, and upgrades (in progress)
- Gym wall padding (HS surplus)
- Significant boiler service/repairs
- Tree removal and safety trimming
- HVAC controls system software upgrade

Transportation

Parking Lot and Sidewalks:

- Annual crack filling and striping

Other:

- Completed annual inspections with the Ohio State Highway Patrol in July - starting to see some significant undercarriage rot in our oldest buses (some are now 20+ years old)
- New transportation van arrived this spring! (right - it's the District's first van purchase in over a decade)

Troy

Parking Lots and Sidewalks:

- Annual crack filling and striping
- Sidewalk repairs are complete

Other:

- Refinished gym floor (upper right)
- Outdoor classroom space completed (lower right) and consulted on a podcasting space in the media center
- Tree trimming and safety removal - pathway toward Curtis Dr.

Westview

Parking Lots:

- Annual crack filling and striping
- Sidewalk repairs complete

Other:

- Removed carpet to convert room for 4th grade use (right - above)
- Custom HVAC coil replacement - media center (lower left)
- HVAC controls system software upgrade
- Picnic table refinishing / painting (lower right)

Westview: A classic example of how we try to meet modern-day needs in a 1956 facility.

Elementaries / Troy / Learwood

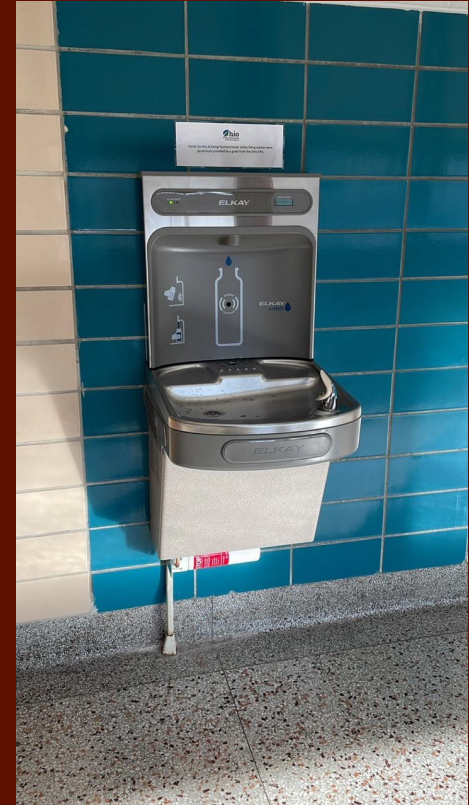

Challenges:

- Roofing, mortar repair, windows and doors, etc.
- HVAC systems
- Interior lighting
- Plumbing
- Significant maintenance/repair is constantly being completed, especially on our roofs (see right for recent repairs at Troy)

District-Wide Projects

- Safety and Security: Camera upgrades (grant-funded)
- Safety and Security: Exterior access controls (grant-funded)
- Drinking fountain / water bottle filling stations (grant-funded)

Teamwork - we are so grateful for our student, parent, and community partnerships.
